OUR FUNDING DELIVERY

The funding has been quite tricky for us to integrate into our ethos. As a setting we have in the past been quite flexible on sessions and session changes and in most cases have been able to accommodate parents needs.

Sadly for us as a setting the government have tied our hands and set a fee that is simply unsustainable in its current format. Even the government have stated that ;

“ The funding is to cover the cost of delivering the free childcare, and is not intended to fund the cost of consumables (such as drinks, meals and nappies) or additional services (such as yoga, music lessons and trips). Providers are free to charge parents for such discretionary items provided they are not compulsory, but this cannot be a condition of taking up a place. The level of these fees is a matter between the provider and the parent.”

Many nursery settings have simply not offered the funding or have become unviable causing them to close as a consequence.

We are committed to trying to make it work long term and have made the difficult decision to change how we offer care to all children in receipt of funding simply to cover costs. The additional costs relating to minimum wages, pension contributions, business rates and more importantly dedicated loyal staff (many whom have degrees) mean we would not survive if we continued as we were.

We quite understand that this delivery model will not suit all parents. Over the next few pages there will be answers to the questions you may have and further explanation of the delivery of care from the age your child gets the **Universal** and **Extended** funding

We do hope you understand our situation and thank you for your continued support.

HOW CAN I USE MY FUNDING ?

There is a number of options for you when your child receives funding. The first choice is, do you wish to attend all year 50 weeks or term time only 38 weeks?

If you attend all year, it will reduce the amount of hours you can claim a week but you can claim them all year.

In both instances the total hours you can claim in an academic year September to August are the same.

You can claim from two settings, but again the total funding received must not exceed your yearly entitlement over the two settings.

15 Hours Universal Entitlement

Funding can be accessed 15 Hours a week over 38 weeks (Term Time Only) totalling 570 hours funding per academic year.
